

# the **neighborhood** project

Quick-start Guide to Streaming Your Neighborhood Project Episodes:

## **MOBILE DEVICE to TV via a CABLE**

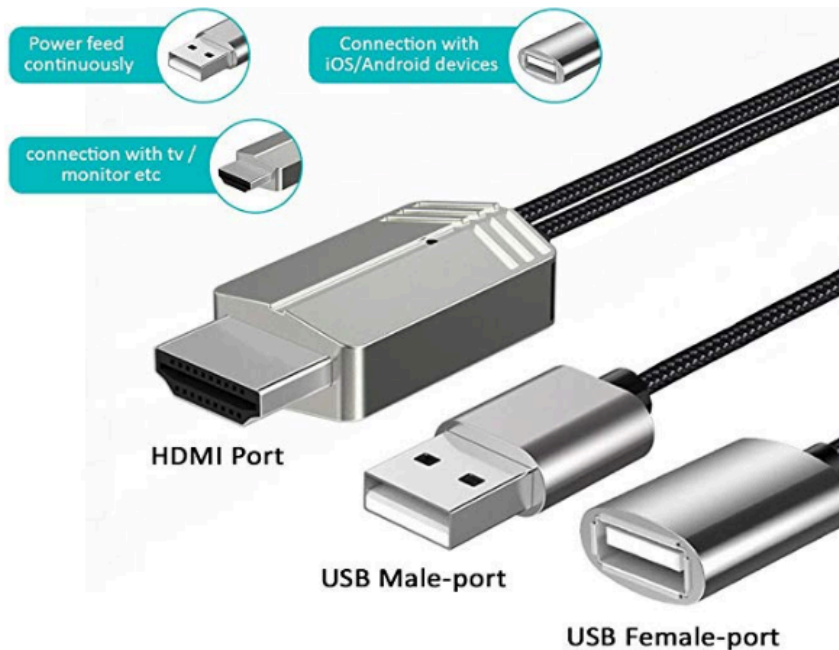

### **1 Get your episode cued up on your Mobile Device.**

Login at [theneighborhoodproject.com](http://theneighborhoodproject.com), go to member content and click “watch episodes” to play this month’s episode.

### **2 Connect your Mobile Device to your TV using an HDMI cable.**

If you don't have the appropriate HDMI cable for your mobile device, click the link below to purchase the recommended cable from Amazon. Please note: this adapter has to be plugged into power to work.

[Click here to view product](#)

### **3 Test your episode before your guests arrive.**

And for best results, test a few days before your event (not just minutes before your guests are scheduled to arrive).
